

SOCIAL SECURITY STRATEGIES

WAYS TO OPTIMIZE YOUR RETIREMENT

Hello, Mr. and Mrs.

This is a confirmation letter for your attendance at my upcoming **Social Security* workshop**, where I'll discuss strategies for **maximizing** your benefits and **optimizing** your retirement. On the following page, you will find your event ticket and a map to the event.

Because there have been significant updates to Social Security rules in the past year or so, we will be discussing these changes in detail. Whether you are currently receiving Social Security, are about to claim your benefits, or have questions about your future benefits, this event will provide you with valuable insight regarding your planning.

Currently, there are more than 560 different ways to collect Social Security benefits. Making a bad decision can potentially cost thousands of dollars in benefits for either you, your spouse, or your family over the course of a lifetime.

Thank you again for your registration, and I look forward to meeting you soon!

Sincerely,

As an added bonus, we will also be providing free educational information on how to **protect** your nest egg from long-term care expenses. Additionally, you will learn how to simplify the distribution of your assets **without** legal fees, estate taxes or the delays of probate.
